

SUDBURY GARDENING FESTIVAL

Saturday, May 26, 2018

9:30 am to 3:00 pm

YMCA & PARKSIDE CENTRE
(140 Durham Street, Sudbury)

FREE ADMISSION

Don't miss the

SPRING PLANT SALE

Hosted by the Sudbury Horticultural Society
and the Sudbury Master Gardeners
beginning at 9:00 am.

Celebrate gardening in Northeastern Ontario at this annual horticultural event in downtown Sudbury.

Enjoy the Sudbury Horticultural Society's Spring Horticultural Show featuring plant specimens, floral designs, garden photography, and crafts created by society members.

Visit the many exhibits of gardening-related products and services.

Purchase your plants, supplies, and services for the upcoming growing season.

Attend the gardening seminars that will be presented by local gardening experts and enthusiasts in the Speakers Corner.

View the educational displays set up by local environmental organizations.

www.sudburygardeningfestival.ca

VETAC (Greater Sudbury's Regreening Committee)

Wild at Heart Animal Refuge Centre

Visit the VETAC display to learn more about celebrating the 40th anniversary of the regreening program and pickup a free shrub and tree seedling.

ASK ABOUT THE REGREENING TOUR FOR GARDENERS PLANNED FOR SATURDAY JUNE 16th AT THE JANE GOODALL TRAIL LOCATED NEAR CONISTON.

Dr. Peter Beckett from VETAC will lead the tour which will highlight Greater Sudbury's many regreening initiatives. Sudbury Master Gardeners will offer gardening advice and Northern Wildflowers will be on site on June 16th with native plants that are great choices for your garden.

SPEAKERS CORNER

TAKE ACTION ON INVASIVE PLANT ISSUES!

Colin Cassin

- Saturday at 10:30 a.m. -

"Colin is the Project Specialist at the OIPC and spends most of his time coordinating the 'Early Detection and Rapid Response Network' for Ontario, as well as managing its social media and website updates, assisting with other projects, funding applications, and conducting outreach. Colin joined the OIPC staff in the summer of 2015, after completing his masters at University of Toronto and working with other small ENGOs. Past research and invasive plant control experience includes a range of invasive species."

Learn how to more effectively respond to the threat of invasive plants in Ontario.

PLANT AND RAKE WITHOUT THE ACHE!

Dr. Randy Koski

- Saturday at 12:00 p.m. -

"Dr. Koski graduated with a Bachelor of Science degree in Chemistry, and from there pursued an education as a Doctor of Chiropractic, where he graduated Summa Cum Laude from New York Chiropractic College in 1996. After graduation he moved back to his hometown to begin his practice career. Dr. Koski has extensive training in Functional Neurology, and is recognized as an international speaker, author, and life and wellness coach."

Keeping in mind good posture and lifting mechanics while doing your gardening activities are essential to avoid injuries while gardening.

GARDEN PHOTOGRAPHY

Dani Lynn Redgriff

- Saturday at 1:30 p.m. -

"I cannot remember a time when I didn't take pictures, or that I did not have my camera with me. I have always loved the outdoors - walking, hiking, and exploring; bringing my camera along was a natural progression for me."

Photography is my passion and I often say that I see the world through a different 'lens' or a series of '4 x 6' shots. I love doing macro's (extreme close-up photography), and photographing landscapes, reflections, old cars, barns and buildings; bringing them to life and capturing them from different angles with a different perspective."

Learn to take more effective nature photos. Following her presentation, Dani Lynn will offer an interactive hands-on photography session for those who wish to bring their own camera.

**SPECIAL THANKS TO AZILDA GREENHOUSES
FOR MAKING THESE PRESENTATIONS POSSIBLE!**

DON'T MISS THESE!

The Society's sale of perennial plants will begin at 9:00 am. Each year members of the Sudbury Horticultural Society and Sudbury Master Gardeners, as well as other supporters, donate plants from their gardens for this sale. You can be sure that all plants are hardy in Northeastern Ontario.

Sudbury Horticultural Society members will offer a spring horticultural show. This annual event provides society members with an opportunity to showcase their gardening, artistic, and floral design talents.

Greater Sudbury's Regreening Advisory Panel (VETAC) will hold its annual seedling give-away. This year, hundreds of native shrub seedlings will be distributed to local gardeners.

Vale and SINO Glencore will also be giving away tree seedlings and showcasing their regreening initiatives.

Public Health Sudbury and Districts will be offering an on-site tetanus clinic for gardeners. Gardeners should wear shoes and gloves when gardening and get their tetanus booster at least every 10 years.

Learn more about donating blood to save lives at the Canadian Blood Services booth and make an appointment.

Greater Sudbury Environmental Services will be giving away free samples of compost for your garden. (while supplies last)

Laurentian University students will offer free soil (PH) testing for those who bring a soil sample.

Sudbury Master Gardeners will provide free gardening advice at their booth throughout the day.

Greater Sudbury Public Library will display gardening resources and allow visitors to borrow them. If you are not already a member of the Public Library you will have an opportunity to join.

Pick up free gardening brochures and handouts.

Enter the door prize draws throughout the day.

Spend all day with us and purchase lunch at the YMCA's Harmony Café or at their outdoor barbecue. All proceeds will be used to support programs at the YMCA.
